Search Tips

You can find researchers who have registered with ResearcherID.

To search for a researcher, enter their name. For a first name, try entering either just an initial or the entire first name. Check the "other names" checkbox to search the Other Names field for either the last name or first name search terms.

Use the wildcard character * at the end of a word to find matches with any ending (for example, Penn*).

Or, if you know it, you can enter just the researcher's ResearcherID.

ORCID

Did you know you can associate your ORCID ID with your ResearcherID account?

- I would like to create an ORCID record. The Open Researcher and Contributor ID (ORCID, Inc.) is a non-profit organization that aims to solve the author/contributor name ambiguity problem in scholarly communication by creating a central registry of unique identifiers. These identifiers can be used within various systems you may interact with in your professional research workflow, including manuscript submission, etc.
- I already have an ORCID record. By creating an ORCID you will be able to link your ResearcherID account with this centralized registry. Learn more about **ORCID**.
- No, thank you. If you choose not to get or associate an ORCID, you can do it at a later time.
